Amendments to the Claims

1. (Currently Amended) A liner for lining a window well, consisting essentially of:
a flexible first side with a three-dimensional pattern protruding therefrom;
a flexible second side that is substantially flat and configured to contact a window well; and
wherein the first side comprises a pattern of artificial rock-shaped protrusions extending therefrom. ~~after molding, the liner is sized and cut to a flat and single contiguous sheet that is elastically flexible and configured to attach to a window well.~~
2. (Canceled)
3. (Previously Presented) The liner according to claim 1, wherein the liner is comprised of polyurethane.
4. (Canceled)
5. (Previously Presented) The liner according to claim 1, wherein the liner is configured to be secured to a window well with screws.
6. (Previously Presented) The liner according to claim 5, wherein the screws are configured to pass through the liner and into a proud section of a window well.
7. (Previously Presented) A window well, comprising:

Attorney Docket 3053.2.1 NP

a single sheet window well liner secured directly to an inside surface of a window well shield without an intermediate mold, that is coupled directly to a home, and having a three-dimensional pattern, wherein the liner is adaptable to a variety of window well shields.

8. (Original) The window well according to claim 7, wherein the window well liner is comprised of polyurethane.
9. (Original) The window well according to claim 7; wherein the pattern is a series of round and elliptically shaped rocks.
10. (Original) The window well according to claim 7, wherein the pattern is a series of generally rectangular shaped rocks.
11. (Original) The window well according to claim 7, wherein the window well liner is secured to the window well with screws, which pass through the liner and into a proud section of the window well.
- 12 - 20 (Canceled)
21. (Previously Presented) A window well liner, consisting essentially of:
a single flexible polyurethane sheet having a first side and a second side, wherein ornamental protrusions extend from the first side;

Attorney Docket 3053.2.1 NP

alkyd paint disposed over the first side; and

wherein the second side is configured to couple directly to a window well.

22. (Previously Presented) The window well liner of claim 21, wherein the second side is substantially free of protrusions.
23. (Previously Presented) The window well liner of claim 22, further comprising a polyurethane ultraviolet layer coupled to the first side, over the alkyd paint.
24. (Currently Amended) The window well liner of claim 23, wherein the liner is adapted to include a plurality of screws disposable therethrough.
25. (Previously Presented) The window well liner of claim 24, wherein the alkyd paint is configured to be disposed over screws.
26. (Previously Presented) The window well liner of claim 25, wherein the single flexible polyurethane sheet is sized to match an associated window well shield.
